

Sponsoring and exposure on ManuREsource conference 2024

After five successful editions, ManuREsource is becoming a well-established international conference within the sector of manure management and valorization. Manuresource is a unique international meeting place for experts from science, industry and policy. The sixth edition of ManuREsource will take place on 20 and 21 March in Antwerp (BE).

During ManuREsource 2024, the focus will be on accelerating the transition towards a circular manure management within realistic economic, ecological and social boundaries. Besides, the core concept of ManuREsource remains exchanging experiences and knowledge between European regions on effective policy measures dealing with manure surplus and innovations in manure treatment technologies.

There are opportunities for establishing a long-term sponsorship of ManuREsource 2024. Feel free to discuss these opportunities with us.
