Request for information from biogas plants on treatment of digestate

14 mei 2019

By completing this survey, you can win an invitation (hotel costs and dinner included) to one of the SYSTEMIC Living Lab meetings in 2019-2021.

The H2020 project SYSTEMIC is looking for information about digestate treatment for compiling a database.

The information in this database will be used to prepare a calculation tool that provides the cost-benefit analysis for existing technologies. The calculation tool will be made publicly available after the project (2021).

COMPLETE THE SURVEY

By completing this survey, **you can win an invitation (hotel costs and dinner included) to one of the SYSTEMIC Living Lab meetings in 2019-2021***.

During this meeting, all operators of the European biogas plants in the SYSTEMIC project will be invited (5 demo installations, 10 outreach locations and interested associated plant operators).

The Living Lab meeting gives a unique insight into the progress of the project, offers network moments with biogas plant operators all over Europe and scientists and includes a visit to one of our demo installations or outreach locations.

It is possible to fill in the survey in Dutch, English, German, French, Spanish and Italian.
Please complete the survey as completely and correctly as possible.

Your anonymity is secured when completing this survey.

Thanks in advance for helping this project.
*Since this is a European project, all communication will be in English. Translations are not provided

Horizon 2020

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 730400.
